## **Top 200 Bull Calf List**

Spring 2012

Includes the top 200 Hereford bull calves for each of the following traits:

Baldy Maternal Profit Index

Calving EZ Profit Index

Brahman Influence Profit Index

Certified Hereford Beef Profit Index

**Top 200 Baldy Maternal Profit Index 2010 & 2011 Hereford Bulls**

**Spring 2012 AHA Sire Summary**

| Name<br>Owner(s) | Reg. No. | H/P | DOB | CE | BW | WW | YW | MM | MG | MCE | MCW | SC | FAT | REA | MARB | \$BMI |
|------------------|----------|-----|-----|----|----|----|----|----|----|-----|-----|----|-----|-----|------|-------|
|------------------|----------|-----|-----|----|----|----|----|----|----|-----|-----|----|-----|-----|------|-------|

These are the top 200 Baldy Maternal Profit Index, 2010 & 2011 bull calves in the Hereford breed.

The Baldy Maternal Index is a maternally focused index that has a production system based off of 1000 Hereford x Angus females with a progeny harvest endpoint directed towards CHB. This index is more critical of CE than the Brahman Influence Index and also has significant weight on fertility. There is positive weight on WW and a slightly negative weight on YW which promotes early growth and then a slow down on growth to keep mature size manageable. The weight for MARB is greater than the weight for REA. This is true because of the price difference between the choice-select spread and the fact that there is very little incentive to produce cattle better than a yield grade 3. The question comes up concerning the fact that our branded beef program (CHB) has been successful because of the acceptance of Select cattle. In answer to this, we are using a crossbreeding production system that could sell cattle on several grids and that our CHB program is installing a choice product. This index is geared to service any commercial program that runs British cross cows.

**Top 200 Calving Easy Profit Index 2010 & 2011 Hereford Bulls**

**Spring 2012 AHA Sire Summary**

| Name<br>Owner(s) | Reg. No. | H/P | DOB | CE | BW | WW | YW | MM | MG | MCE | MCW | SC | FAT | REA | MARB | \$CEZ |
|------------------|----------|-----|-----|----|----|----|----|----|----|-----|-----|----|-----|-----|------|-------|
|------------------|----------|-----|-----|----|----|----|----|----|----|-----|-----|----|-----|-----|------|-------|

These are the top 200 Calving Easy Profit Index, 2010 & 2011 bull calves in the Hereford breed.

The Calving Easy Index is a general purpose index that focuses on identifying bulls that can be used on heifers and then ultimately the calves will be marketed through CHB. As you might expect, CE and MCE has significant weight in this index along with fertility. There is very little weight put on growth traits and less emphasis on carcass. Remember, this is a general index that is specifically designed to be used in a heifer program.

**Top 200 Brahman Influence Profit Index 2010 & 2011 Hereford Bulls**

**Spring 2012 AHA Sire Summary**

| Name<br>Owner(s) | Reg. No. | H/P | DOB | CE | BW | WW | YW | MM | MG | MCE | MCW | SC | FAT | REA | MARB | \$BII |
|------------------|----------|-----|-----|----|----|----|----|----|----|-----|-----|----|-----|-----|------|-------|
|------------------|----------|-----|-----|----|----|----|----|----|----|-----|-----|----|-----|-----|------|-------|

These are the top 200 Brahman Influence Profit Index, 2010 & 2011 bull calves in the Hereford breed.

The Brahman Influence Index is a maternally focused index that is based off of a 1000 head cow herd of Brahman x Hereford cross cows. The progeny for this index will be harvested in a commodity based system since CHB does not allow Brahman influenced cattle into the program. This index has less emphasis for CE than any of the other indexes. There is emphasis on both REA and MARB since the cattle will be harvested through a commodity market. The largest emphasis in this index is in fertility which is measured solely by Scrotal Circumference at the present time. Obviously, the target for this index is the producers in the Southern regions of the US where the bulls are typically sold to commercial cattlemen that have Brahman Influenced cow herds.
